

Dear Sirs,

Please consider carefully the proposed expansion of LPFM stations. K-LOVE is a station that my wife and I support directly because we appreciate its content. Specifically, that content is ad-free, family safe & meaningful music and messages.

I am particularly concerned that if K-LOVE is displaced, then new broadcast providers will not chose the same type of high-quality programming, depriving me and all people in my area of K-LOVE's service. I do know that it is easy for me to find a wide variety of channels for alternatives, but there are few dedicated family stations and only one with which I can support ad-free radio.

As for public interest, this country has traditionally found strength in diversity. There are plenty of channels - radio and otherwise - that provide the secular world-view. Most of them I choose to turn off. K-LOVE, however, directly serves my personal interests and those of others. How can I be sure about the interests of others? Because K-LOVE is directly listener supported. If a large number of us weren't paying for it, it wouldn't exist.

Please do no remove this public service in favor of the LPFM broadcast operators. Thank you.

Regards,  
Mark Schreiber
